## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 2-19, 21-26, and 29-31 are allowable over the prior art of record.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: Applicants have claimed the following uniquely distinct features in the instant invention which are not found in the prior art, either singularly or in combination.

1. Regarding claim 2 - A network system comprising: a first LAN, a second LAN, storage means for storing data accessible from the first LAN and the second LAN, and control means for controlling accessibility of the data stored in the storage means from the first LAN and the second LAN, the control means including access prevention means for preventing access from the first LAN to the second LAN and from the second LAN to the first LAN, and means for overriding a setting of the access prevention means to allow accessibility of the second LAN from the first LAN.

2. Regarding claim 6 - A network system comprising: a first LAN comprised of a LAN on a factory side, a second LAN comprised of a LAN on a device side, storage means for storing data accessible from the first LAN and the second LAN, and control means for controlling accessibility of the data stored in the storage means from the first LAN and the second LAN, the

control means including access prevention means for preventing access from the first LAN to the second LAN and from the second LAN to the first LAN.

3. Regarding claim 21 - A network system comprising: a first local area network, a second local area network, a storage device for storing data, and control means for controlling independent accessibility of the data stored in the storage device from the first local area network and the second local area network without allowing access from the first local area network to the second local area network and from the second local area network to the first local area network.

The closest prior art, either singularly or in combination, fail to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Claims 2-19, 21-26, and 29-31 being allowable, **Prosecution On The Merits Is Closed** in this application.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
